## Professional Summary

---

Full-Stack Developer with 2+ years of experience delivering scalable and performant web applications using React.js, Laravel, and the MERN stack. Proven track record in reducing development cycles, boosting application efficiency, and driving traffic through SEO strategies. Adept at designing robust system architectures, managing cloud infrastructure (AWS), and working in Agile teams to deliver user-centric products.

## Technical Skills

---

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, TailwindCSS, MaterialUI, ShadCN, Bootstrap, jQuery

Backend: Node.js, Express.js, Laravel, PHP, RESTful APIs, GraphQL

Databases: MySQL, MongoDB, PostgreSQL

DevOps & Tools: Git, GitHub, GitLab, Docker, AWS, Vercel, Jira, CI/CD Pipelines, Figma

Other: Agile Methodologies, SEO Optimization, Object-Oriented Programming, Data Structures & Algorithms

## Professional Experience

---

Full-Stack Developer, Logicsice Consultancy Pvt. Ltd. – Jaipur, India March 2023 – Present

- Implemented CI/CD pipelines, reducing manual deployment effort and cutting delivery time by 30%.
- Architected scalable applications using React.js (frontend) and Laravel (backend), resulting in 40% faster response times.
- Enhanced SEO for client websites, boosting organic search traffic by 80% through dynamic meta tag generation and sitemap optimization.
- Managed AWS infrastructure, optimizing EC2 and RDS usage to reduce server costs by 25% while maintaining 99.9% uptime.
- Built modular RESTful APIs and used object-oriented design principles to reduce code complexity and enhance maintainability.

React.js Intern, Celebal Technologies – Jaipur, India June 2022 – July 2022

- Developed a GitHub-integrated UI to display user repositories and activity, improving frontend rendering speed by 40%.
- Conducted rigorous API testing and debugging, ensuring high availability and stability.

## Education

---

Poornima Group of Institutions, B.Tech in Computer Engineering July 2019 – May 2023

- CGPA: 8.2/10
- Capstone: Developed a scalable real-time chat app using React.js, Node.js, and WebSocket, supporting 500+ concurrent users with 99% uptime.
- Relevant Coursework: Operating Systems, DSA, OOP, DBMS

BDJMS, Senior Secondary (XII) July 2016 – May 2018

## Projects

---

BikeShare - Bike Rental Platform

- Built a full-stack MERN application allowing 1,000+ users to list, rent, and book bikes in real-time.
- Integrated Stripe payment gateway, achieving 99.9% transaction success rate.
- Optimized booking flow to reduce processing time by 40% and increased conversion rates by 25%.

- Designed responsive UI with TailwindCSS, boosting mobile engagement by 30%.

#### Inventory Management System

- Developed a Laravel-based inventory platform for 50+ retail clients, improving stock tracking accuracy.
- Built RESTful APIs for real-time inventory updates, reducing manual entry errors by 60%.

#### Achievements & Certifications

---

Microsoft Certified: Azure AI Fundamentals

Jan 2022

Hackathon Winner: Poornima Tech Fest – Built a real-time traffic monitoring system using React.js & Node.js

2022

Open-Source Contributor – Contributed to a React UI library adopted by 200+ developers on GitHub
